

# [Research Centre for Literature, Arts and Science](#)

écrit par Épistémocritique

[The Research Centre](#) was formally opened in Autumn 2006 with support from the University, the Division of English and the Higher Education Funding Council for Wales (HEFCW).

The website was created in February 2007 to offer all researchers, lecturers, and postgraduates interested in the interdisciplinary study of literature, arts and science a single online source for scholarship, information, events, and contacts.

RCLAS is also host to the Journal of Literature and Science - which can be accessed directly from the button on the left hand margin. The JLS is a peer-reviewed journal dedicated to the publication of interdisciplinary scholarship on literature and science across all historical periods.

RCLAS's key event in the academic year 2011-12 was its Conference [Medicine at the Margins](#)
